

## **RANDOM REWARDS®**

### **MYSTERY BONUS SYSTEM:**

Designed to increase casino activities and customer loyalty by directly rewarding members for gaming and/or non-gaming activities with randomly generated rewards.

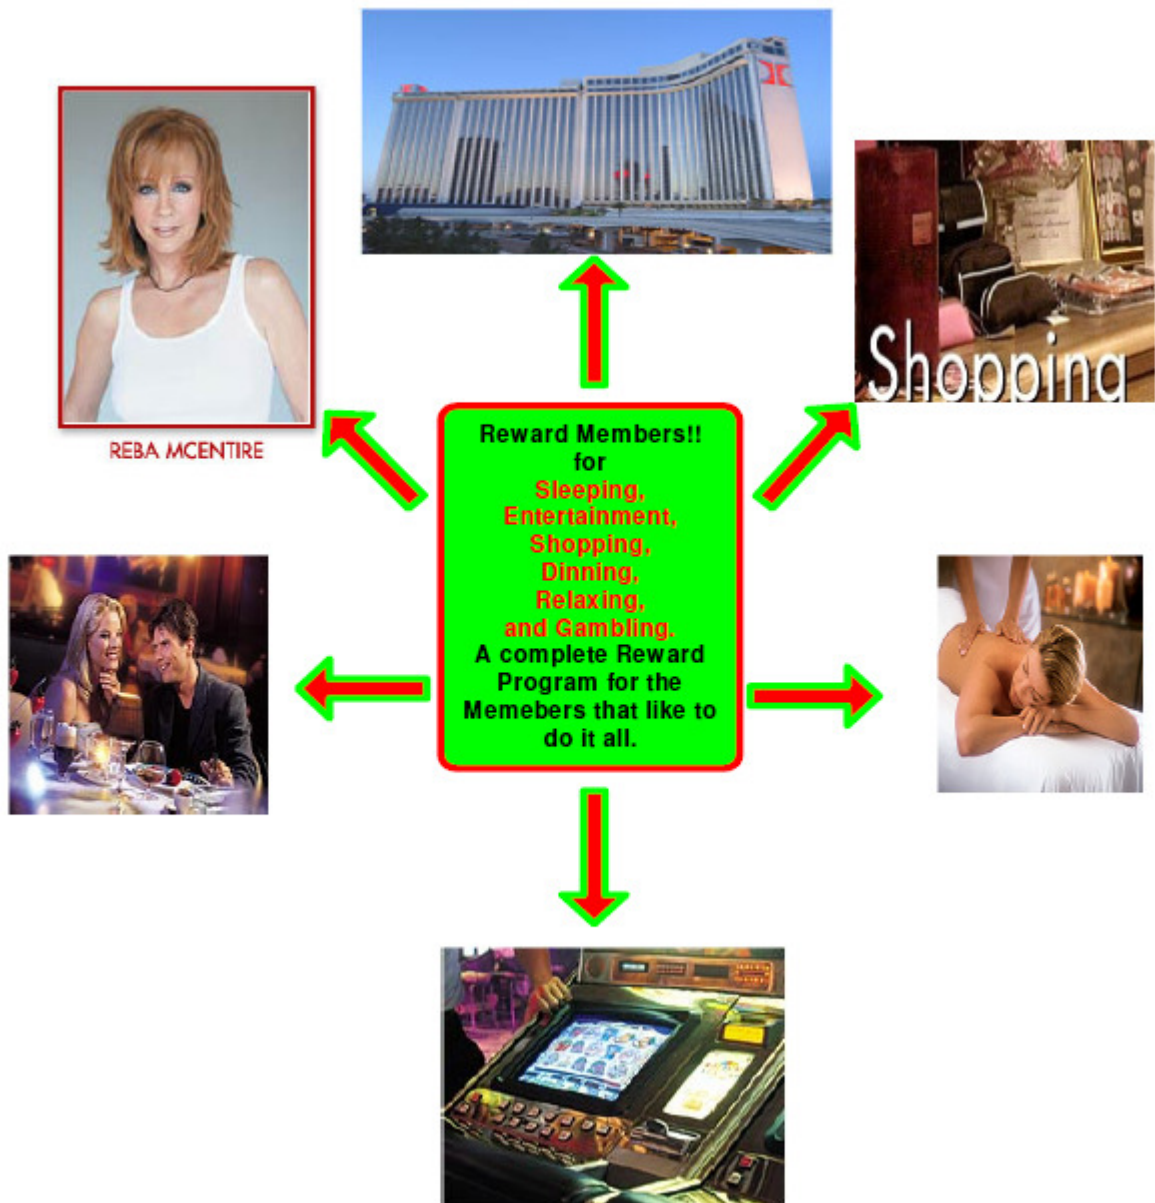

For Example: Cash, Reward Points, Prizes or any combination of Random Awards of all sizes and types from a fixed or progressive prize pool.

**Random Rewards is the only proprietary Mystery Bonusing System in the industry that allows operators to:**

- Determine the average value, frequency and type of Random awards from a fixed or progressive prize pool.
- Transform a progressive prize pool into a dynamic Mystery Bonusing System that awards loyal members Random Awards of all sizes and types from a continually growing prize pool until one loyal member wins the Total Random Rewards Jackpot.
- Fund the prize through a percentage of coin-in and/or non-gaming revenues, (For Example: promotional allowances, point of sales, etc).
- Randomly select and rewards members Random Awards based on individual members status level.
- Determine and randomly select any gaming or non-gaming activity to qualify members to win Random Awards.
